7535 Water Street, home will be demolished. The resident was informed of the timeline for billing and new construction.

Edwards was not at the meeting. She provided Slayton with an update. The lead service line inventory is still in progress and all samples were good for the month. Langer spoke with the excavating company regarding the sludge removal. They were not able to get after any of the work before the hard freeze. He did state that it would cost more to do the removal twice instead of all at once. This is potentially planned for August. The commission may have to do decide to split the removal based on budget information. We will talk about this issue again and Staples may be able to help with St. Croix Construction equipment.

No Tribal Council or finance update.

The next meeting will be Monday, January 12th, 2025, at 10a.

A motion by Davis, and seconded by Williamson, to adjourn the meeting at 10:31a. Motion carried.

Respectfully submitted,  
Sarah Slayton, JWQC Secretary/Treasurer
